

**Product:** Double Sided Polyprop RDA 60 GSM

**Code:** D052

### Product Description

An OPP material, coated on both sides with a clear synthetic rubber adhesive.

### Features

- Rubber adhesive helps to resist water and provides for a durable hold.

### Applications

### Technical Data

Liner	Paper Siliconized White
Carrier	OPP - clear
Adhesive	Synthetic rubber adhesive.
Film Thickness	25 Micron
Adhesive Thickness	60g/sqm per side
Total Thickness Allowance (Variance)	+/- 10%
Application Temperature	16° to 30°C
180° Peel Adhesion (ASTM D 3330)* (Steel)	≥11N/25mm
Holding Power (ASTM D 3654)*	60 mins
Tensile Strength (ASTM D 3759)*	14kg/mm <sup>2</sup>
Elongation (ASTM D 3759)*	100%
Initial Tack (JIS Z0237)*	≤100mm
*Data represents the minimum value from the results of a series of tests	
Storage Conditions	Cool, dry area out of direct sunlight – 12 months
